NEW YORK, Aug. 4th, 1860. HIGHLY IMPORTANT FROM PENNSYLVANIA—DOUGLAS ABANDONED BY FORNEY, HICKMAN & Co.—'The anti-Lecomptonice Democracy of Pennsylvania, led by Forney, Hickman & Co., are showing themselves in their Rue colors, as will be seen by the highly important speech, delivered by John Hickman, in the Concert Hall, Philadelphia, on Tuesday evening, the 24th inst., which he formally announces the abandonment of Jouglas, and comes out boldly for Lincoln.

Mr. Hickman declares Douglas far inferior to Breckuridge; he gives a scathing record of the Illinois Senalor's career, and pronounces that the only safety for the country lies in supporting Lincoln.

This is all for the better. It will narrow the contest the only two issues involved in it, and will strip it of the ambiguity and humbug with which it has been Avested. We always predicted that the anti-Lecompton Democracy would come to this. We knew that Forney, aving recived his office as Clerk of the House from the depublicans, should give them his support, furtively, if openly; but Hickman is an honest, outspoken man, battle cry they have adopted. Douglas must follow not," says he; "bad luck to me for that same; but sure if my own father had been there, and his head looking or be counted out—dropped, and abandoned by his if my own father had been there, and his head looking so nice and convanient, I could not have helped myself."

Sound Democratic Sentiment of Northern Supporters of Breckinridge and Lane. The following letter from Charles O'Conner, Esq. was read at the great Breckinridge and Lane ratifica-

tion meeting recently held in New York : NEW YORK, July 17, 1860. Gentlemen: - Cordially approving the nomination of J. C. Breckinridge for President and Joseph Lane for Vice President of the United States, I regret that it will not be in my power to address the ratification meeting appointed to be held to-morrow at the Cooper In-

However deeply it is to be deplored that rival plat-forms and rival candidates are presented to the Democratic party, threatening to divide its strength and deliver it over as an easy prey into the hands of its opponents; yet, such being unhappily the fact, the duty of making a choice cannot be avoided.

The difference between these two platforms, like every political question of the times, derives all its significance from the subject of negro slavery. Its relation to the Territories and to the mode of governing them is merely the form in which this perpetually recurring subject is here developed as an element of strife. The controversy, in all its practically bearings, is merely this :-How is negro slavery to be dealt with?

In its moral, political, legal and economical aspects, my views on that general subject have been so distinctly and so often expressed, that my position in reference to the rival platforms now before us could not be doubt-

The most fertile regions of the globe cannot be so cultivated as fully to develop their natural resources for the benefit of mankind except by negro labor; negro labor cannot be there employed except through the judicious compulsion of a superior race; and in no way can Fears are entertained that Garibaldi will suddenly so great a measure of physical enjoyment and moral improvement be imparted to the negro as by his compulso-

ry servitude in these very regions. From these undeniable facts, written in the great book of nature, proven by experience, and not without sanction from revelation, my reason draws the inference that negro slavery is not repugnant to justice-is not negro, and is not inexpedient as a matter of social pol- copy the following from the Saratogian:

Let us apply these views to our own country. "Since the foundation of this Republic, negro slavery has ever been a main pillar of our strength, an indispensable element of our growth and prosperity. It is now an integral part of our being as a nation; to expel it by fraud or tear it out by violence, would be a national suicide.' It follows that " to vindicate its essential justice and morality, in all the Courts and places, before men and

nations, is the duty of American citizens." A moral war has been made upon this institution by infidels, and a quasi religious crusade has been preached against it by another class. Hitherto, at least in the North, no one has defended it, and its Southern advocates have not been heard. The natural results have ensued : Johnson, dem., elected Governor, supposed by 10,000 | judgment has passed against it by default, and the idea that it conflicts with natural justice and divine law has taken possession of the Northern mind.

This state of things afforded a most promising quarry for the industry of political party makers and they have availed themselves of it. They thus argued: "With the National Conscience on our side-with God and Nature both on our side, and against our antagonistssurely we must win." "Accordingly this bright idea has been industriously worked into a political organization, and here stands before us at the North the Black Republican, almost, if not absolutely invincible.

Why has that party any strength? Why does it now threaten to destroy harmony between the North and red \$1 51 a \$1 33 per bushel. Corn quiet- and the South, leading to disunion and disaster, deep and irremediable? It is simply because the false assumption of Aboli-

> tionists that negro slavery is wicked and unjust, has been permitted to pass unrefuted. How is that destructive party to be shorn of its pernicious strength? There is but one method by which this object can be effected; and that is by denying and

> disproving the false position on which it is founded. We must, as a party, insist unqualifiedly that in the institution of negro slavery there is nothing whatever which calls for unfavorable action by government; that the right of the white master to the services of his negro slave is, in every moral sense, precisely the same as his right to any other property.

If this principle be not true, no honest man ought to desire the permanency of our Republic; it it be true, the The shipments of silver from the Washoe mines aver- Black Republican doctrine is a treasonable and destructive fallacy.

I am in favor of the principles enunciated in the Senate resolutions of 1860, and in the report of the Committee on Resolutions made to our National Convention with coolies, anchored in Drake's bay on the 23d, and at Charleston, because they came up to this point. They owing to suspicious movements a cutter was dispatched meet the exigency before us; they fairly and directly to arrest her as a slaver and for not entering at the meet the issue as it is understood by all honest and sensible men on either side.

I am in favor of Breckinridge and Lane, because they stand upon a platform distinctly expressing these princi-

Mr. Douglas declines practically to stand up to them. He blinks the main issue, and seeks to ride into power upon a dogma which impliedly concedes to abolitionism the vital element of its political power, to wit: that negro slavery is unjust, or at least has in it some element which, on moral grounds, justifies hostility.

His friends may deny this construction; but to my mind it is manifestly just. The whole practical importance of his popular sovereignty doctrice is in its bearing on the slave question. No one cares a fig about it except in this single connection; in all its other bear- person; and we do hereby order this proclamation to be ings it is an admitted abstraction, unworthy of a moment's attention, and incapable of attracting it.

Let any man who doubts this, read Mr. Douglas' article. Slavery is the staple of his whole argument. The phrases and postulates of the anti-slavery agitators are invoked by him at every point in discussion, and most liberally used to sustain his views.

Thus, to all practical purposes, Mr. Douglas presents himself as a semi-Abolitionist. His platform tends to keep Abolitionism alive, as a power in the State, for future mischief. The platform of Breckinridge and Lane assails the Hydra in front and aims to slay it outright.

Whilst I am thus with you in sentiment, and to the extent of my humble powers am ready to aid in your object, I cannot lose sight of the policy which requires a thorough union of all New Yorkers who are opposed to NEW YORK, August 2.—The steamer Northern Light the election of Lincoln. Concurring with that aminent and patriotic citizen of Pennsylvania, William B. A Long Sermon .- A contemporary, speaking of the old meeting house-a very elegant one, by the way-lately burnt at Saco, says:

"The church was erected during the ministry of the Rev Elihu Whitcomb, and the dedication sermon was preached by him February 12th, 1860. It was ninety feet in length by fifty-tour in breadth." &c. Uncle Toby remarked as he read this, that he had heard and seen some long sermons, but didn't remember any one so long as ninety feet; and that the breadth was quite uncommon-long sermons usually being slim or slender.—Portsmouth Chronicle.

REVIEW OF THE WILMINGTON MARKET, FOR THE WEEK ENDING AUGUST STH, 1860.

TURPENTINE-Since our review of Wednesday last the market for this article has ruled steady, and prices remain unchanged. There has been a fair enquiry for distilling puroses, and also some demand from shippers, and parcels have generally found sale on arrival at quotations in table below. The arrivals for the week ended this morning have been rather better, though not so large as was anticipated, and the sales comprise only 3,349 bbls., as follows:

Virgin. Yel. Dip. Wednesday\$2 30.....\$2 30.....\$1 15 765...... 2 30....... 2 30...... 1 15 464. 2 30. 2 30. 1 15 Wednesday. 180..... 2 30...... 2 30...... 1 15 grav, and from falling to any age, as well as restore. Read will be given.

Spirits Turpentine.—Since our review of Wednesday the following:

Aug. 6, 1860. last we have no material change to notice in the price of this article. The market ruled quiet at former quotations during the early part of the week, and the transactions were limited; since Monday, however, there has been a better feeling among buyers, and 34½ cents for country and 36 cts. for New York bbls. has been quite freely offered, and sellers generally are now holding at higher prices. This mornwhich is an advance of half cent. We quote sales for the week of 2,478 bbls., as follows:

Wednesday, 100 bbls. at 36 cents per gallon for N. Y. bbls. Thursday .. 250 " " 36 Do..... 50 " " 344 Friday 300 " " 344 Saturday,.. 127 " " 344 100 " " 36 Do 77 " " 35½ Monday, ... 500 " " 36 554 " " 344 Do 100 " " 36

Tuesday,... 300 " " 343 Wednesday, 20 " " 35 Rosin-For the finer grades the market bas ruled inactive and been entirely neglected since the close of our last review. There is a moderate quantity of Pale offering sale. but buyers show no disposition to operate unless at materially reduced rates, which holders are unwilling to accede to: in consequence we have no sales to report, and quotations in table are merely nominal. For the lower grades (No. 2 and Common) there has existed a moderate demand, 7,000 bbls. at \$1 05 per bbl. of 310 lbs.

BEEF CATTLE AND SHEEP .- The arrivals of beeves continue light, and for some time past have been confined to small droves. A moderate demand exists for butchering purposes, and prime quality of grass fatted meet with ready sale and sold at 6 cents per 1b. For Sheep there is also a brisk demand, and the market is poorly supplied. A small lot sold in the early part of the week at \$1 50 to \$2 25 each, hal bue. I consider your restorative as a very wonderful according to quality.

BARRELS .- In the market for empty Spirits Turpentine barrels we have no change of consequence to report. Only a few small lots have arrived since our last, and the stock

COFFEE—The market rules firm for all descriptions, and we notice a very light stock in dealers hands. For Rio there

is a moderate demand, and prices have advanced a shade. See table for store quotations CORN MEAL-Is in moderate request, and there is only a light supply on market; none coming in from the country. We quote from the granaries at 95 cents per bushel, in lots. FLOUR-For State brands the market has ruled quiet since our last review and no transactions of consequence have taken place. The small quantity arriving, together with the small stock here, has caused holders to advance their rates, and it is now held at \$7 25 for superfine, and \$7 50 for family, at which one or two small parcels have found

GRAIN.-In the CORN market we have to report considers ble duliness since our last, and prices have materially de clined—being 2½ a 7½ cents lower than quoted on Wednes day last. The receipts comprise 10,263 bushels from Hyde County, of which 1500 came to a dealer, and the balance sold as follows: 1700 bushels on private terms, 4200 do. at 721 cents, 1450 do. at 671 cents, and 1413 do. heated at 621 cents per bushel—the market closing quiet at 72½ cents for prime Hyde County. About 1000 bushels also received from New York and sold on Monday at 71 cents per bushel. There is a good stock at present on market, and there is only a limited demand. OATS - Are in moderate stock, and nothing doing except in the retail way. Quotations in table represent cargo price.——Peas—There is a fair stock of Cow in the hands of dealers, and the market rules decidedly dull, and prices have a downward tendency .-About 297 bushels received by vessel for the week, of which 255 sold at 80 cents, and 35 at 75 cents per bushel—closing at latter price. No sales in other descriptions .- RICE. -Very little clean has come to market for the past two or three weeks, and the stock in dealers hands is rather light; there is, however, only a light demand, and we quote small

sales at 44 cents per lb. GUANO. - There is a fair supply of most descriptions in the hands of dealers, and at present there is but little demand. We quote small sales during the week at the following prices, in lots of one ton and upwards: No. 1 Peruvian \$60; Reese's Manipulated \$52; American \$40; Sombrero \$35; Superphosphate of Lime \$50; and Land Plaster \$10 per ton. HAY .- There is nothing new to report in the market for either description. One lot of 77 bales Eastern was received on Friday last, and sold at \$1 20 per 100 lbs., 90 days. Two or three parcels of Northern also received, but no sales except in the retail way from wharf. LIME .- None received for the past two weeks worthy of

eport, and the stock has become considerably reduced .-We quote from store at \$1 05 to \$1 10 per cask for common Molasses-Is in moderate supply, and there is merely retail business doing. We quote Cuba at 24 a 26 cents per

gallon, in hhds. POTATOES .- A few lots of new Sweet have been received and are selling from boats at \$1 per bushel. PROVISIONS-For N. C. cured Bacon the market continue to rule firm, and high prices are readily obtained for a prime article; -only a few small lots have been received during the week, and the stock on market is very light. We quote sales of 5700 lbs. at 13 cents for sides, 14 cents for sides and hams, and 15 cents per lb. for hams-the latter figure being paid for an extra article. We quote nominally at 13 cents for hog round. In Western cured we have nothing new to report ;-the stock on market continues light, but in consequence of the high prices the demand is limited. We quote from store at 104 a 11 cents for shoulders, and 124 a 13 cents for sides, as in quantity and quality. LARD-Has been brought in sparingly for some weeks past, and the stock on market is unusually light. We quote a fair demand, with smail sales of N. C. at 14 a 14 cents, and Western at

13 a 14 cents per lb., in bbls.—generally held at highest figures .- PORK-In Northern there is no change of conequence to notice. The market is moderately supplied, and here is only a retail business doing at quotations in table. SALT -No late receipts of either quality, and the stock on market has become materially reduced, For Liverpool ground we notice a brisk demand, and high prices could be had for a cargo or two. See table for quotations. SHINGLES .- The demand from shippers has become checked, and it is now principally for parcels for building purposes; no receipts, however, except small lots of Common, which have sold at \$3 per M.

TIMBER-None has been brought to market since our last that we can hear of, and therefore we have no transactions to report. For prime quality mill there is a moderate demand, and fair prices can be obtained. FREIGHTS-In the market for coastwise we notice a better feeling since our last, though we have no change to make in rates. But little produce is now offering, still no difficulty is experienced in obtaining cargoes for vessels, and nearly all in port have already been taken up. See ta-

ble for last rates paid. CHARLOTTE, Aug. 6.-Cotton-Very dull. We quote Good Middling 9 a 9 1-2; Ordinary 7 a 8 cents. Wheat-Red \$1 20 a \$1 27; White \$1 30 a \$1 37 per bush. Flour-Superfine \$3 121 a \$3 25; Extra \$3 25 a \$3 371 per sack of 98 lbs.; \$6 50 a \$6 75 per bbl. Corn-Firm at 92 a 95 cents per bushel.

Butter-Worth 15 cents per 1b. Lard - Sells at 13 cents per lb. Bacon-Quoted at 12 a 121 cents per lb. Chickens-Worth 15 cents a piece. Eggs-124 cents per dozen.

OAK GROVE, S. C., June 24th, 1859.
PROF. O. J. WOOD-Dear Sir: Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test: During the year 1854, I was so unfortunate as to be throw

from my sulky against a rock near the roadside, from which ng one small lot (20 bbls.) of country sold at 35 cents, my head received a most terrible blow, causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was finally destroyed over the entire surface of the head. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and, as I thought, 3:06 " Northwest understanding the nature of the disease, but was finally de- 3:57 " Marlville feated in every prescription advanced. Thece and no other circumstances induced me to resort to 5:38 your worthy Hair kestorative, which I have every reason to believe produced a very happy result. Two months after the first application, I had as beautiful a head of young hair

as I ever saw, for which I certainly owe you my most sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little. You can publish this, if you think proper.
Yours, very respectfully, M. J. WRIGHT, M. D.

Office of the Jeffersonian, Philippi, Va., Dec. 12th, 1858. Dear Sir: I feel it my duty, as well as my pleasure, to state to you the following circumstance, which you can use and several parcels have changed hands at about the same as you think proper. A gentleman of this place, (a lawyer,) prices given on Wednesday last. In No. 2 the sales com- has been bald ever since his youth; so much so, that he was prise 5.108 bbls. of inferior and ordinary at \$1 10 to \$1 122 compelled to wear a wig. He was induced to use a bottle per 310 lbs. In the Common article the transactions have of your "Hair Restorative," which he liked very much; and been light, owing mainly to the small quantity in receivers hands and the reduced stock—and at the close there is a bet-luxu iantly, and he now has a handsome head of hair. The ter feeling in the market. We quote sales for the week of gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the TAR-Continues to be brought to market sparingly, and truth of this statement; I give it to you at the request of we notice a moderate demand. The arrivals for the past Mr. Bradford. You can sell a great deal of your Hair Reweek comprise only 114 bbls., which were taken at \$1 80 storative in this and the adjoining counties if you have the proper agents. Yours, &c., THOMPSON SURGENOR.

DR. Wood-Dear Sir : Permit me to express the obligations I am under for the entire restoration of my hair to its at fair prices. Unly one small drove received for the week original color; about the time of my arrival in the United invention, quite efficacious as well as agreeable. S. THALBERG.

The Restorative is put up in bottles of three sizes, viz. on market is still very light. A fair demand exists for prime quality, which sell readily at fair prices. We quote second hand at \$1 25 to \$1 30 for lots as they run. and \$1 80 to \$1 85 for selected; and New York make at \$2 10 to \$2 15 each, as in quantity.
